

Workplace Health and Safety Professional Development Opportunities

The Alberta Regional Professional Development Consortia are pleased to partner with the Alberta Teachers' Association in delivering Workplace Health and Safety professional Development to teachers and administrators in the province over the next year.

As a result of having received a Workplace Health and Safety grant from Alberta Education, the Alberta Regional Professional Development Consortia will facilitate and fund Lead teacher in-servicing for six (6) teachers and one (1) Health and Safety Manager in the province. It is anticipated the Workplace Health and Safety Lead teacher in-servicing will be completed by May 1, 2009.

The seven (7) Lead Workplace Health and Safety teachers will be available to deliver in-services to teachers and administrators through professional development opportunities hosted by regional professional development consortia, the ATA PD Locals and the ATA Annual Conventions. PD Locals or Convention Boards wishing to access the funded services of the Workplace Health and Safety Lead teachers should contact Jacquie Skytt, Coordinator of Organizational Support at the Alberta Teachers' Association [Jacquie.Skytt@ata.ab.ca] or the Executive Director of the regional professional development consortia in your region.
