

This learning opportunity is subsidized as a result of a grant from Alberta Education to support implementation.

Registration deadline:
**Tuesday,
July 27, 2010
at 10:00 a.m.**

Please register with payment as soon as possible to avoid disappointment.

Student Created Digital Storytelling and Narrative Inquiry Products Using Microsoft Photostory with Daniel Maas

August 19, 2010 from 9:00 a.m. to 3:30 p.m.

WHO SHOULD ATTEND: Grade s 4-9 Teachers

ABOUT THIS LEARNING OPPORTUNITY:

Communicating through multimedia can offer a powerful, emotional, and engaging learning experience for students, be it for telling a story or for communicating knowledge of a concept or topic. While leading students through the creation of a multimedia product for digital storytelling or inquiry learning can be intimidating for some teachers, having a structured plan and using an easy-to-use program like Microsoft Photostory can make the process much easier for teachers. In this session participants will be led through a process for using Microsoft Photostory for digital storytelling or inquiry learning and will create a short multimedia production of their own. Participants will be left with practical suggestions as well as a scaffolded structure and access to all session resources so they can begin a digital storytelling project with their students the following week!

ABOUT THE FACILITATOR:

Danny Maas is an Emerging Technologies Consultant with Edmonton Catholic Schools where he serves teachers integrating technology meaningfully across the curriculum. Danny has sixteen years teaching experience and was a 2003 recipient of the Alberta Excellence in Teaching Award. Danny was recently seconded for three years – two years with Alberta Education as Project Coordinator for Videoconferencing at School Technology Branch and one year with 2Learn.ca Education Society as Provincial Coordinator for the VC Regional Leads Network. Danny has a master's degree in educational technology and is passionate about learning and collaboration.
