Short for web-based seminar, a webinar is a presentation or workshop that is transmitted over the web. The key feature is its interactive elements – the ability to give, receive and discuss information, typically through tools such as slide show presentations, video, audio, websites and text. You will require a computer with high-speed internet, speakers and a microphone (or a headset with a microphone). Participants must complete a "First Time Users" test of their system by visiting <http://elluminate.com/support/index.jsp> at least two days prior to the webinar. If you have any questions, please contact the ERLC at 780-444-2497 or email us at info@erlc.ca.
