SMART Board 101 Webinar Series with Candace Beaton

February 2, 9, 16, 23 & March 2, 2011 from 4:00 p.m. to 5:30 p.m.

WHO SHOULD ATTEND: Kindergarten to Grade 12 teachers that have SMART Boards in their classrooms and who consider themselves beginner users of this technology. It is recommended that you have access to Notebook software during these webinars.

ABOUT THIS LEARNING OPPORTUNITY:

SMART Board Fundamentals

In this webinar, the focus is on understanding the fundamentals of the SMART Board interactive whiteboard and how it functions. You will explore the Floating Toolbar, and how to customize this tool for maximum use.

Notebook Toolbar - Part 1

In this webinar you will explore the Notebook software toolbar. Examples of each tool will be provided and you will spend the hands-on portion building examples that are relevant to their subject/grade level.

Notebook Toolbar – Part 2 + Working with Objects

In this webinar, you will continue to explore the Notebook toolbar and will also learn how to work with objects within Notebook (locking, grouping, linking, etc).

Introduction to the Notebook Gallery

In this webinar, the focus is on the Notebook Gallery. You will learn how to access and use the Gallery and Lesson Activity Toolkit within Notebook to create dynamic, interactive activities for your classrooms.

Advanced features and Resources

Focus for this webinar is on the advanced features of Notebook software. These features include, but are not limited to, how to download, convert and embed sound and Flash video, use SMART Recorder, use object animation and customize the Notebook Gallery.

There are a multitude of resources available for use in a classroom with interactive whiteboard technology. This webinar will also narrow down those resources to provide you with an in-depth look at the best places on the Web to find content and resources.

Registration deadline:
